

July 21, 2017

Dear Media outlet/news reporter,

The Green Bay Public Schools teachers really need your help. We basically have been given a gag-order. The administration hopes that all the problems that our school district has will simply go away and they can brush it all under the rug.

We really want to be vocal but we cannot. We need our jobs. We need to put food on the table. We need to pay our bills. We need health insurance. The abuse of power in this public sector institution is unreal. No one wants to work here any more.

We received the enclosed information today, July 21, 2017, in an email from the district at about 8:00 am. I am sending to you as a screenshot for fear of any paper trail leading to my name. It was a passive-aggressive way to tell us to “shut up or else...” Many of us want to sign the petition that is circulating online to remove the superintendent but we know that we cannot. We are afraid of being fired.

The school board is not in charge at all and that is entirely their fault. Please, media, help us. We need justice. We need truth. Our school district continues to go downhill. We are trapped.

Sincerely,

A Green Bay teacher --name withheld
